

**Harbour
School
Dorset**

Child Protection & Safeguarding Policy

Next review: Sept 2020

Important names

The Whole Governing Body and all school staff have responsibility for safeguarding.

Chair of Local Governing Body: Keith Norman (k.norman@harbourschooldorset.com)

Designated Safeguarding Leads:

Sean Robertson, Headteacher (s.robertson@harbourschooldorset.com)

Dan Butt, DHT (d.butt@harbourschooldorset.com)

1. Introduction

Section 175 of the Education Act 2002 and regulations under section 157 places a duty on the governing body to have arrangements in place to ensure safeguarding and promoting the welfare of children. The Trustees recognise that children have a fundamental right to be protected from harm or exploitation and that children cannot learn effectively unless they feel secure. The Trustees will, therefore, provide a school environment that promotes self-confidence, a feeling of worth and the knowledge that child's concerns will be listened to and acted upon.

Governors, staff and (volunteers) in this school understand the importance of working in partnership with children, their parents/carers and other agencies in order to promote children's welfare.

The governors will also ensure that the school carries out its statutory duties to report suspected child abuse or neglect to the Local Authority Children's Services (Social Care) and to assist them in taking appropriate action on behalf of children in need or enquiring into allegations of child abuse or neglect. Our schools recognise the contribution they can make to protect and support children in their care and contribute to a co-ordinated offer of early help.

Our school is committed to ensuring that best practice is adopted when working with all children and young people, offering them support and protection and accepts that it has a legal and moral responsibility to implement procedures, to provide a duty of care for young people, to safeguard their well-being and to protect them from abuse.

The purpose of this policy is to:

- Afford protection for our children.
- Enable staff and (volunteers) to safeguard and promote the welfare of children.
- Promote a culture which makes the school a safe place to learn.

This Safeguarding and Child Protection Policy applies to all governors, employees (including supply and peripatetic staff), (volunteers) and people using the school.

We **ALL** acknowledge that:

- The child's welfare is of paramount importance and all children have the right to be protected from abuse and neglect.
- All employees and (volunteers) will receive safeguarding training appropriate to their designation. This is to ensure all staff are aware of the signs and symptoms of abuse and neglect, how to identify children who may benefit from early help, and raise awareness of the wide range of safeguarding issues and how to help to respond and support the children in their care.
- Children who are being abused, neglected or at risk of harm will only tell people they trust and with whom they feel safe, and that any member of staff needs to be able to respond appropriately to a child who discloses evidence of abuse or raises other concerns about their welfare.
- It is essential that member of staff's own practice and behaviour puts children's welfare first and cannot be misconstrued in any way and does not contravene accepted good practice.
- All staff and (volunteers) must be made aware that they should report any concerns about safeguarding practice or any concerns about staff to the Headteacher or Chair of Governors if the concern is regarding the Headteacher. They must also be aware that they can report concerns to the Local Authority LADO or Ofsted.

Aims of the Policy

- To raise the awareness of **ALL** school staff of the importance of child protection and safeguarding children and of their responsibilities for identifying and reporting actual or suspected abuse, neglect or concerns about a child's welfare.
- To ensure children and parents are aware that the school takes the safeguarding agenda seriously and will follow the appropriate procedures for identifying and reporting abuse, neglect or concerns about a child's welfare and for dealing with allegations against staff.
- To promote effective liaison with other agencies in order to work together for the protection of all children.
- To support children's development in ways which will foster security, confidence and independence.
- To integrate a safeguarding curriculum within the existing curriculum allowing for continuity and progress through all key stages.
- To take account of and inform policy in related areas such as discipline, bullying, staff and child behaviour policies and E-Safety.

Our procedures will be regularly reviewed and updated. The Safeguarding and Child Protection Policy will be updated annually and subsequently presented to the governing body for ratification.

There are three main elements to the School's safeguarding policy:

1. **PREVENTION** (Positive and safe school environment, careful and vigilant teaching, accessible pastoral care, support to children and good adult role models.)

2. **PROTECTION** (Agreed procedures are followed, staff are trained and supported to respond appropriately and sensitively to safeguarding concerns.)
3. **SUPPORT** (To children who may have been at risk of significant harm and the way staff respond to their concerns and any work that may be required.)

Safeguarding is the responsibility of **ALL** adults and especially those working or volunteering with children. The school aims to help protect the children in its care by working consistently and appropriately with all agencies to reduce risk and promote the welfare of children. All professionals work within the same child protection/safeguarding procedures.

2. Definitions of Safeguarding and Child Protection

Safeguarding and promoting the welfare of children is **everyone's** responsibility. **Everyone** who comes into contact with children and their families has a role to play. In order to fulfil this responsibility effectively, all professionals should make sure their approach is child-centred. This means that they should consider, at all times, what is in the best interests of the child.

(KCSIE)

Child protection refers to the activity that is undertaken to protect specific children who are suffering, or are likely to suffer, significant harm.

(Working Together, Appendix A glossary)

3. Safe School, Safe Staff

Staff will follow the guidance from 'Safer Working Practice for Adults who work with Children and Young People in Educational Settings' (2015).

All members of the Trust board and Leadership team understand and fulfil their responsibilities; namely to ensure that:

- There is a culture of vigilance.
- There is a nominated governor for Safeguarding.
- There is an updated Safeguarding and Child Protection policy in place, it is on the school website, and all staff are familiar with it.
- The Designated Safeguarding Leads and Deputies are members of the Senior Leadership Team.
- The Designated Safeguarding Leads, Deputies and pastoral care team staff will undertake the full two-day Safeguarding training followed by an 'update' course every two years.
- All other staff have safeguarding updates annually and full training as per the KCSIE guidance.

- As part of school induction, any staff new to role and (volunteers) have a meeting with the Designated Safeguarding Lead.
- The school operates Safer Recruitment procedures by ensuring that there is at least one person on every recruitment panel that has completed Safer Recruitment training.
- The school have procedures for dealing with allegations of abuse against staff and (volunteers) and for making a referral to the DBS if a person in regulated activity has been dismissed or removed due to safeguarding concerns, or would have had they not resigned.
- They consider how children may be taught about safeguarding through PHSCE lessons and/or sex and relationship education.
- There is a clear Whistleblowing Policy in place and this is shared with staff at induction.
- Supervision is in place for staff working directly and regularly with children whose safety and welfare are at risk. Supervision is also in place for all staff working within Early Years.
- Positive behaviour is consistently promoted.

4. The Designated Safeguarding Lead and Deputy Designated Safeguarding Lead have the responsibility to ensure that:

- A child will be referred to the Local Authority if there are concerns about possible abuse and will act as a focal point for staff to discuss concerns. Referrals are made in writing following a telephone call to the MASH.
- Electronic records of concerns about a child are held, on My Concern, even if there is no need to make a referral.
- All such records are kept confidential and secure. These files will be transferred, as appropriate, when a child leaves and the DSL/PCW will have a conversation with the new setting regarding safeguarding information that will be shared. Records must be sent to new school securely; a record of receipt is requested. Following the LSCB guidance, once the information has been transferred, it will be destroyed unless there is an exceptional circumstance where it is still required.
- They will liaise with other agencies and professionals as appropriate. Where appropriate consent to share forms will be completed with parents to ensure information is shared with consent. It is good practice, in the interests of data protection, information sharing and effective working relationships to inform parents that a referral is being made. The only exception to this is where if it is felt that the child will be put at risk of harm by sharing the information. This will be discussed with the MASH at the time of the discussion regarding the concern. In this case, parents will not be informed by school staff.
- Either they or a PCW attend Case Conferences, Core Group meetings and represent the school at these or other agency meetings. In the unlikely event that a school representative is unable to attend meetings, a written report will be sent.

- All vulnerable children's attendance is carefully monitored by relevant staff, especially those children that are on a Child Protection Plan, looked after or previously looked after.
- Relevant safeguarding training is arranged annually for all staff (more often for staff with core safeguarding responsibilities). Any (volunteers) will have an induction with the DSL or PCW.
- They meet with new staff as part of their induction to discuss staff expectations and Safeguarding/Child Protection procedures and that a copy of the Child Protection/Safeguarding Policy and flowchart is provided along with part 1 of KCSIE and Annex A.
- They provide a termly report to the Trust Compliance and Safeguarding Panel detailing any policy changes, training undertaken and number and type of incidences/cases anonymised. This will include the number of children subject to a child protection plan.
- They provide support to staff in stressful or upsetting circumstances following their involvement with a child's disclosure or subsequent referral.
- School staff do not have social media contact with past or present children or parents in line with school E-safety/social media policy. If staff do have exceptional circumstances to know a parent in another capacity, this must be disclosed to the Designated Safeguarding Lead and the staff member must ensure that their social media settings are secure.

5. Early Help

Any child may benefit from early help, but all school and college staff should be particularly alert to the potential need for early help for:

- A child who is disabled and has specific additional needs.
- A child who has special educational needs (whether or not they have a statutory education, health and care plan).
- A child who is a young carer.
- A child that is frequently missing/goes missing from care or home.
- A child that is misusing drugs or alcohol.
- A child that is in a family circumstance presenting challenges for the child, such as substance abuse, adult mental health problems or domestic abuse.
- A child that has returned home to their family from care.

If early help is appropriate, the Designated Safeguarding Lead, Deputy DSL or PCW will generally lead on liaising with other agencies and setting up an inter-agency assessment as appropriate. Staff may be required to support other agencies and professionals in an early help assessment, in some cases acting as the lead professional. Any such cases should be kept under constant review and consideration given to a referral to children's social care

for assessment for statutory services, if the child's situation does not appear to be improving or is getting worse.

In order to do this, staff will work with other local agencies to identify children and families who would benefit from early help. They would:

- Contact the Early Help Assessment and Plan (EHAP) team.
- Provide early help services e.g. School Nurse, Pastoral Worker, SENCO, Family Outreach Worker, targeted youth, breakfast club, SSCT.
- Refer to appropriate services e.g. CAMHS.

The School ensures that children have a choice of staff who will listen to their concerns either about themselves or about one of their peers.

6. Responding to Disclosures – guidance for staff

If a child wishes to confide in you, the following guidelines should be adhered to:

- **Be honest**
 - Do not make promises that you cannot keep.
 - Explain that you are likely to have to tell other people in order to stop what is happening/ keep them safe.
- **Create a safe environment**
 - Stay calm.
 - Reassure the child and stress that he/she is not to blame.
 - Tell the child that you know how difficult it must have been to confide in you.
 - Listen to the child and tell them that you believe them and are taking what is being said seriously.
- **Record on the My Concern exactly what the child has said to you and include;**
 - Date and time of any incident.
 - What the child said and what you said.
 - Your factual account e.g. child's behaviour and emotional state.
 - Any action you took as a result of your concerns - specific information about who you spoke to and resulting actions.
 - Provide relevant information to Social Care.
- **Be clear about what the child says and what you say**
 - Do not interview the child and keep questions to a minimum.
 - Encourage the child to use his/her own words and do not try to lead them into giving particular answers.
- **Maintain confidentiality**
 - Only tell those people that it is necessary to inform.
- **Do not take sole responsibility**

- Urgent safeguarding concerns must be shared verbally. Immediately consult your Designated Safeguarding Lead so that any immediate action can be taken to protect the child if necessary. This information will subsequently be recorded on My Concern. The Designated Safeguarding Lead should refer these concerns to Social Care or the Multi Agency Safeguarding Hub (MASH) before the child goes home if still in school. A decision will be made by the Social Care/MASH whether to convene a strategy meeting, undertake a social care or joint investigation or provide alternative services or advice.
- All staff should be aware of the process for making referrals to children's social care and for statutory assessments under the Children Act 1989, especially section 17 (children in need) and section 47 (a child suffering, or likely to suffer, significant harm) that may follow a referral, along with the role they might be expected to play in such assessments.
- If in exceptional circumstances, the Designated Safeguarding Lead is not available, this should not delay appropriate action being taken.

The MASH will advise about if and when to share information with parents if there are concerns that this may be putting the child more at risk.

Reporting and recording concerns

Through training, all staff will be able to identify signs of abuse or neglect and be able to identify cases of children who may be in need of help or protection. They should be vigilant, protective and discuss any concerns with the DSL.

All concerns are recorded in line with LSCB guidance. Staff are expected to have an attitude of **'it could happen here'** where safeguarding is concerned. When concerned about the welfare of a child, staff members should always act in the best interests of the child. **Any concern that a member of staff has must be recorded on the day of concern.** Pastoral and DSL staff will triage these concerns within the day and prioritise the concerns that need to be responded to as matter of urgency.

Any member of staff, volunteer or visitor to school who receives a disclosure of abuse or suspects that abuse may have occurred must verbally report it immediately to a Designated Safeguarding Lead (see list of staff on front page of policy) or a member of the pastoral care team (who will in turn contact a DSL). They should also record on My Concern. Designated staff are also happy to discuss any concerns raised by parents.

If appropriate, a Designated Safeguarding Lead will inform the MASH, unless the child about whom there are concerns already has an allocated social worker, in which case that person will be contacted without delay. This action could be taken by any member of staff if necessary.

The MASH Contact telephone no. is 01202 228866 Email: MASH@dorsetcc.gov.uk

Telephone referrals to the MASH should be confirmed by completion of a referral form or email.

The Designated Safeguarding Lead/Deputy or a member of the pastoral care team should discuss concerns with parents/carers and advise them of any referrals to the MASH/Children and Young Peoples Social Care. The exception to this would be when it is considered that to do so will place the child at risk of immediate harm.

Advice will be taken from the duty officer regarding this.

Confidentiality must be maintained and information shared with staff on a strict need to know basis. Although the usual referral route will be via the Designated Safeguarding Lead, **ANY** member of staff can raise concerns directly with the MASH.

All information needs to be recorded in non-judgemental, non-emotive language. All records must be dated and indicate the person making the report.

Note what was seen and said. Concerns raised by the majority of staff are reported using MY CONCERN an electronic reporting system.

MDSAs, (volunteers), peripatetic and supply staff should complete a paper concern sheet and hand these to a member of the pastoral team or a DSL. This will then be added to MY CONCERN. The paper record uploaded as an attachment to that particular concern.

Any additional hand-written records will be scanned onto a child's chronology on MY CONCERN.

Following up referrals

- The agency to which the referral was made e.g. the MASH, should inform the referrer of their action. Where this does not happen promptly, the referrer/DSL /PCW should contact the agency to which it made the referral to be assured that action is being taken or that alternative support is being recommended.
- If after a referral the child's situation does not appear to be improving, the DSL should press for re-consideration following the LSCB Escalation Policy.
- It is essential that the school remains actively involved in support and plans even where another agency is taking the lead whether at early help, child in need or child protection level.
- Where there is a difference of opinion with another agency and this cannot be resolved, the LSCB Escalation policy should be used.
- http://pandorsetscb.proceduresonline.com/chapters/p_escalation_pol.html

Social Care referrals:

Poole MASH: Telephone (01202) 735046 or mash@poole.gov.uk

Dorset MASH: Telephone (01202) 228866 or MASH@dorsetcc.gov.uk

Poole EHAP referrals: Telephone (01202) 262626

KCSIE – Flowchart (part 1: page 13)

Actions where there are concerns about a child

(1) In cases which also involve an allegation of abuse against a staff member, see Part Four of this guidance.

(2) Early help means providing support as soon as a problem emerges at any point in a child's life. Where a child would benefit from co-ordinated early help, an early help inter-agency assessment should be arranged. Chapter one of [Working together to safeguard children](#) provides detailed guidance on the early help process.

(3) Referrals should follow the local authority's referral process. Chapter one of [Working together to safeguard children](#).

(4) Under the Children Act 1989, local authorities are required to provide services for children in need for the purposes of safeguarding and promoting their welfare. This can include section 17 assessments of children in need and section 47 assessments of children at risk of significant harm. Full details are in Chapter One of [Working together to safeguard children](#).

(5) This could include applying for an Emergency Protection Order (EPO).

7. Supporting Children

We recognise that a child who experiences abuse may feel helpless and vulnerable and may, as a result, have additional emotional needs. We accept that research shows that the behaviour of a child in these circumstances may range from that which is perceived to be normal to aggressive or being withdrawn. We recognise that the school may provide the only stability in the lives of children who have been abused or are at risk of harm.

Our school will support all children by:

- Encouraging the development of self-esteem and resilience in every aspect of school life whilst not condoning aggression or bullying.
- Promoting a caring, safe and positive environment.
- Liaising and working together with all other agencies.
- Providing where necessary targeted Emotional Literacy Support delivered by a Trained Emotional Literacy Support Assistant.
- We recognise that children in care are highly vulnerable and schools ensure there is a Designated Teacher for 'Looked After' children and 'Previously Looked After.' Regular Personal Education Plans (PEPs) are held with a focus to not only develop a child's academic potential but also to support the child with their emotional needs.

8. Partnership with parents, carers and the community

Sharing Concerns with Parents

The school shares a purpose with parents to educate, keep children safe from harm and have their children's welfare promoted

We are committed to working with parents positively, openly and honestly. We ensure that all parents are treated with respect, dignity and courtesy. We respect parents' rights to privacy and confidentiality and will not share sensitive information until we have permission or it is necessary to do so to protect a child.

School will share with parents any concerns we may have about their child unless to do so may place a child at risk of harm.

We encourage parents to disclose any concerns they may have. We make parents aware of our Child Protection and Safeguarding Policy and parents are aware that these are on the school website.

The DSL and relevant staff will be aware on a need to know basis of any parental factors which may affect the welfare of a child e.g. violence, mental health, substance misuse. Parents are encouraged to make the school aware themselves but should be aware that other agencies will share safeguarding information. A record of this is kept in school.

Information about safeguarding is readily available and visible in the school and via the websites of each of our schools.

The school has links with its local community, which will promote the welfare and safeguarding of children e.g. religious, cultural or other local issues

9. Domestic Abuse

The school receives information from the police to alert the Designated Safeguarding Lead in the school when there has been an incident of domestic abuse in a household where a child lives. We are not informed of the detail of the incident, only that one has occurred. This allows us to monitor and support the child. If we have additional concerns, we will discuss the need for further safeguarding actions with the MASH. This information would only be shared with other staff on a restricted need to know basis i.e. those who are immediately responsible for the child's welfare such as the class teacher. Where a Multi agency risk assessment conference (MARAC) occurs, the school may be asked for information and appropriate school related information may be shared with the school after the meeting.

The school website/information boards will provide contacts to local domestic abuse services e.g. [National DV Helpline \(0808\) 2000247](tel:08082000247), [Poole DA Outreach \(01202\) 710777](tel:01202710777), [Bournemouth 01202 547755](tel:01202547755) Dorset: youfirst@theyoutrust.org.uk 0800 032 5204

10. Children with Child Protection Plans

Children who are the subject of a Child Protection Conference will have either an agreed multi-disciplinary action plan or child protection plan. The Designated Safeguarding Lead or PCW will attend planning meetings and core group meetings specified in the plan and contribute to assessments and plans.

The schools recognises that children who are the subject of abuse, neglect or who live in situations of domestic abuse may exhibit distressed or challenging behaviour and may not be reaching their full academic potential. The school will ensure that appropriate support mechanisms are in place in school.

11. Children with Special Educational Needs or Disabilities (see KCSIE page 26: 102)

Our Trustees recognise that children with special educational needs or disabilities may be especially vulnerable to abuse, can face additional safeguarding challenges and expect staff to take extra care to interpret correctly apparent signs of abuse or neglect. Indications of abuse will be reported as for other children. They may be increasingly vulnerable to being bullied, at higher risk of sexual exploitation, on line grooming and radicalisation. Staff should work closely with parents/carers in meeting any particular needs and providing any appropriate safeguarding advice.

Additional barriers can exist when recognising abuse and neglect in SEND children. Staff awareness should be raised to these issues.

These can include:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration.
- Communication barriers and difficulties in overcoming these barriers.
- Being more prone to peer group isolation than other children.
- The potential for children with SEN and disabilities being disproportionately impacted by behaviours such as bullying, without outwardly showing signs.

Trustees will provide a school environment in which children with special educational needs or disabilities feel confident and able to discuss their concerns. Whenever possible, children will be given the chance to express themselves to a member of staff with appropriate communication skills. The Designated Safeguarding Lead and Deputy will work with the Special Educational Needs Co-ordinator to identify children with particular communication needs.

12. Children with Mental Health/Emotional Health Needs

Children identified with mental health/emotional issues or those with parents/siblings identified with mental health issues will be offered additional support. Children will have a choice of staff who will listen to their concerns about themselves or other children and appropriate early help services are available within school/college. Where trained, some staff will practice mental health first aid. The pastoral team are leads for mental health. Referrals will be made to CAMHS or other appropriate services in conjunction with parents.

The school is working in line with [Mental health and behaviour in schools guidance](#) (2016).

The school will support children with strategies to develop their own emotional well-being i.e. emotional literacy and resilience. Additional support will be available at exam, result and transition times, e.g. support from Number 18 advice centre, Poole www.upinpoole.co.uk and appropriate information will be widely advertised e.g. [Childline](#)

13. Peer on peer abuse

All staff recognise that children are capable of abusing their peers. Abuse is abuse and should never be tolerated or passed off as "banter", "just having a laugh" or "part of growing up". All staff are also aware of the gendered nature of peer on peer abuse (i.e. that it is more likely that girls will be victims and boys perpetrators), but that all peer on peer abuse is unacceptable and will be taken seriously.

Peer on peer abuse can include (but is not limited to) bullying (including cyberbullying); sexual violence and sexual harassment (**see KCSIE part 5**); physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm; sexting and initiating/hazing type violence and rituals.

Procedures to minimise the risk of peer on peer abuse:

- The children take part in weekly PSHE lessons.
- Rights' Respecting behaviour is promoted throughout the school. The UNICEF Rights' Respecting values are displayed throughout the school environment and discussed in class.
- Pupils are engaged by staff during break and lunch times.
- The school offers ELSA or pastoral support for those pupils known to us who struggle with their behaviour and /or emotions.
- Where needed, the school's pastoral support team provide support for children around friendships and friendship groups.
- During PSHE we explore Friendships, which emphasises the importance of building and maintaining positive relationships.
- Teachers are available at the end of the day to talk to parents and offer support and advice.
- Staff receive annual safeguarding training, as well as ongoing SEN and behaviour management support.

How allegations of peer on peer abuse will be recorded, investigated and dealt with:

- Staff will listen carefully and talk to pupils individually. The school takes a restorative approach to investigating and resolving conflict. Children are encouraged to be honest, to share their views and problem-solve in order to reach a solution. Comic strip conversations and social stories may be used, depending on the child's needs and level of understanding.
- Witness statements from adults and/or children will be collated and logged on the school's safeguarding log (My Concern).
- A thorough summary of the incident is recorded on child's file as part of their chronology. This summary will include key facts and actions, and not the personal opinion of the note-taker.
- A member of SLT will be informed if necessary.
- Depending on severity, parents will be informed and follow-up review meetings planned if necessary.
- Where a child has caused significant physical harm to another child, this will be recorded by the DSL/Deputy DSL on the 'Significant physical assault form.'
- Sanctions will be assessed on a case-by-case basis, in line with school's behaviour policy.
- Concerns about inappropriate sexual behaviour will be reported to the DSL, Deputy or PCW immediately. They will then use the Brooke Traffic Light tool and a referral will be made to the MASH who will advise on the appropriate action to take and facilitate a strategy meeting when appropriate. The risk to other pupil and staff must be assessed and the school must risk assess the level of support and school action needed to protect other children in the school. ([See also LSCB policy](#)). The

pastoral care worker, alongside a member of SLT, will work with the family in order to offer support strategies. The school's EWO may also become involved in order to support the family and offer home visits.

- A Pupil Specific Risk Assessment will be created and/or updated. This will be reviewed on a needs basis.
- Violent behaviour between 16 and 18 year olds in a relationship or from a young person towards a parent or carer is a form of domestic abuse and will require consideration of specialist help including referral to the MASH. Advice or referral may also be made to the MASH for younger pupils where there is violent behaviour.
- Any racist or prejudice incidences will be recorded, dealt with appropriately and parents fully informed. If necessary, the Safer Neighbourhood Team/ SSCT will be asked to become involved to support in educating students of appropriate language/actions. Staff will be vigilant and proactive in challenging any child use of inappropriate and disrespectful or prejudicial language.

Clear processes as to how victims, perpetrators and any other child affected by peer on peer abuse will be supported:

- All children involved in any peer on peer abuse case will be appropriately supported. Support (and sanctions) will be considered on a case-by-case basis taking the situation and pupil's needs into consideration.
- Depending on the case, the school will usually refer to appropriate external agencies for support, such as Family Outreach, counselling services, social care, CAMHS, specialist Outreach Services, etc.
- Depending on the case, ELSA or pastoral support will often be provided.
- The school will carry out regular check-ins on the pupil/s by a member of staff. This could be the Class Teacher/TA/Middle Leader/PCW/Deputy Head, depending on the case.
- Review meetings will take place with all involved, including parents/carers, key staff and external agencies.
- Careful monitoring of the pupil will occur during the school day by key members of staff. Any concerns will be formally logged.
- There will be opportunities for pupils to restore and build relationships in school. This may involve the child receiving targeted intervention or specific support from an adult.

14. Safer Recruitment

Recruitment, selection and pre-employment vetting

In line with KCSIE part 3 (page 28)

All school staff (and volunteers if we had any) have enhanced checks by the Disclosure and

Barring Service and adults taking part in regulated activity are also checked against the barring list. A continually updated Single Central Register is maintained.

The school carries out DBS retesting every three years. The school expects honesty from all its employees, where a caution or conviction is not declared this may result on a disciplinary.

A number of staff are Safer Recruitment trained and at least one of these will be involved in every recruitment process.

Informing the school of any change in circumstances

All staff are responsible for informing the Head Teacher if there is any change in their circumstances, which may be seen as having an impact on their suitability to work with children. This may include for example, a criminal conviction or a police caution.

Induction

All new members of staff and (volunteers) are provided with child protection awareness information at induction and the Safeguarding and Child Protection policy and procedure is shared. It is also shared with staff on an annual basis, any updates are highlighted and staff and a register of attendance is kept – any misconceptions or queries are then resolved on an individual basis.

All staff receive a copy of an up to date KSCIE, along with highlighted changes and their understanding is confirmed through a questionnaire.

Staff Training

The DSLs and deputies will attend Level 3 safeguarding training at least once every two years. They will attend forums and keep up to date with recommendations from serious case reviews, changes to national and LSCB policy and guidance.

The whole school staff will receive formal safeguarding training by a suitably qualified person at least every 3 years with regular, and at least, annual updates. Staff are notified of any necessary changes with reminders being made via email or staff meetings.

The school follows local LSCB guidance in relation to safeguarding training (latest guidance 2016).

15. Safer working practice

All staff understand the importance of safer working practice. All staff are made aware of the Guidance for safer working practice and the expectations of this guidance and are working within this. Relevant training is given and advice, guidance or sanctions applied where this guidance is not followed

Safe working practice ensures that pupils are safe and that all staff, (volunteers) and Governors/Trustees;

- Are responsible for their own actions and behaviour and should avoid any conduct which would lead any reasonable person to question their motivation and intentions.
- Work in an open and transparent way.
- Work with other colleagues where possible in situations open to question.
- Discuss and/or take advice from school management over any incident which may give rise to concern.
- Record any incidents with the actions and decisions made.
- Apply the same professional standards regardless of gender, race, disability or sexuality.
- Be aware of confidentiality policy.
- Are aware that breaches of the law and other professional guidelines could result in criminal or disciplinary action being taken against them.
- Staff (and Volunteers) are aware of expectations under the E -safety policy.

For further information please refer to: **Guidance for Safer Working Practice (2015)**
<http://www.saferrecruitmentconsortium.org/GSWP%20Oct%202015.pdf>

16. Staff Behaviour

The Trust has a **code of conduct** for all staff and (volunteers) outlining expectations.

We expect all staff and (volunteers) to conduct themselves in the following way:

- Treat all pupils with respect.
- Set a good example by conducting themselves appropriately.
- Involve pupils in decision-making which affects them.
- Encourage positive and safe behaviour among pupils.
- Be a good listener.
- Be alert to changes in a child's behaviour.
- Recognise that challenging behaviour may be an indicator of abuse.
- Read and understand all of the school's safeguarding and guidance documents on wider safeguarding issues, for example bullying, physical contact, E-safety and information sharing.
- Ask the child's permission before doing anything for them which is of a physical nature, such as assisting with dressing, physical support during PE, music or administering first aid.
- Maintain appropriate standards of conversation and interaction with and between pupils and avoiding the use of sexualised or derogatory language.
- Maintain professional standards and boundaries at all times on and off the school site.
- Be aware that the personal and family circumstances and lifestyles of some pupils lead to an increased risk of neglect and or abuse.

Staff, (volunteers), governors/trustees must not be involved in any activity which is illegal and may pose a risk to pupils, e.g. access to child pornography, extremist or radicalisation activities.

Staff and (volunteers) are reminded to declare any offences or involvement with the police relevant to their employment. Where safeguarding or criminal issues occur in an employee's private life, the impact of this on their suitability to work with pupils will be assessed with the support of the LADO/HR as appropriate.

Allegations against Staff

Staff who are concerned about the conduct of a colleague towards a child are undoubtedly placed in a very difficult situation. They may worry that they have misunderstood the situation and they will wonder whether a report could jeopardise their colleague's career. All staff must remember that the welfare of a child is paramount. The school's Whistleblowing Policy enables staff to raise concerns or allegations in confidence and for a sensitive enquiry to take place. Please refer to Whistleblowing Policy.

All staff are made aware of the NSPCC whistle blowing helpline:
<https://www.nspcc.org.uk/what-you-can-do/report-abuse/dedicated-helplines/whistleblowing-advice-line/>

The **KCSIE 2018: part 4** - Allegations of abuse made against teachers and other staff, and the Bournemouth and Poole LSCB procedures will be followed for both the investigation and support for the member of staff.

We will ensure that child protection concerns or allegations against adults working in the school are referred to the Local Authority Designated Officer (LADO) for advice, and that any adult found not suitable to work with children will be notified to the Disclosure and Barring Service (DBS) for consideration for barring, following resignation, dismissal, or when we cease to use their service as a result of a substantiated allegation, in the case of a volunteer or external agency. **(KSIE part 4)**

Bournemouth Local Authority Designated Officer (LADO)

Poole Local Authority Designated Officer (LADO)

Julie Murphy (01202 633694)

17. Welcoming other Professionals

Visitors with a professional role, such as the school nurse, social worker, family outreach worker, educational psychologist or members of the Police will have been vetted to work with pupils through their own organisation.

Professionals will be required to bring their identity badges on all visits and to wear these. They will complete signing in/out forms and wear a school I.D. badge if required to do so.

Professionals should make an appointment to visit school. It is not necessary for these staff to show a DBS. In the case where they arrive unannounced, then a call to their agency should be made to verify the visit.

For agency, third-party staff and contractors, safer recruitment procedures and the guidance in KCSIE must be followed.

18. Off Site Visits

Off site visits are the subject of a risk assessment and these are approved by the Educational Visit Leaders within school. Safeguarding concerns or allegations will be responded to following the LSCB procedures. The member of staff in charge of the visit will report any safeguarding concerns to the Designated Safeguarding Lead or Deputy, who will pass to MASH if appropriate. In an emergency, the staff member in charge will contact the police and/or the MASH.

The child protection/safeguarding policy and procedures of an offsite provider e.g. water sport activity, will be checked, and the DSL will need to be satisfied that they are appropriate, before using the facility.

19. Photography and images

To protect pupils we will:

- Seek parental consent for photographs to be taken or published (for example, on our website or in newspapers or publications).
- Use only the child's first name with an image (in and around school).
- Not display names of pupils with images or videos online.
- Ensure that pupils are appropriately dressed.
- Encourage pupils to tell us if they are worried about any photographs that are taken of them.

Within school, at events, parents and carers are usually permitted to take photographs of their own children, these are to be for personal use only and are not to be shared on social media.

20. Physical intervention

We acknowledge that staff must only ever use physical intervention as a last resort, when a child is endangering him or herself or others. Minimal force must only be used to prevent injury. We understand that physical intervention may cause injury or distress to a child.

Any incidences of physical intervention are recorded.

Only staff trained in the use of physical intervention will use physical intervention except in exceptional circumstances and there is an immediate risk, in which case any adult can intervene.

21. Children missing from education

All staff should be aware that children going missing, particularly repeatedly, can act as a vital warning sign of a range of safeguarding possibilities. This may include abuse and neglect, which may include sexual abuse or exploitation and child criminal exploitation. It may indicate mental health problems, risk of substance abuse, risk of travelling to conflict zones, risk of female genital mutilation or risk of forced marriage. Early intervention is necessary to identify the existence of any underlying safeguarding risk and to help prevent the risks of a child going missing in future. Staff should be aware of their school or college's unauthorised absence and children missing from education procedures. **(KCSIE page 76 - Annex A)**

The school will keep its admission registers accurate and up to date.

The school attendance policy is regularly updated and understood by all staff. Attendance and patterns of attendance will be regularly reviewed. The school employs a home school liaison officer to monitor attendance and support families as needed. Any children missing education will be reported as required by the statutory guidance 'Children Missing Education' (Sept 2016).

A child going missing from education is a potential indicator of abuse or neglect including sexual exploitation or risk of radicalisation. After reasonable attempts have been made by the school to contact the family (including all emergency contacts), the school will follow the LSCB procedure and refer to the Local Authority education welfare/attendance service. All schools will inform their Local Authority if a child is referred to be educated outside of the school system, e.g. Elective Home Education, ceased to attend, unfit to attend on health grounds, in custody for 4 months or permanently excluded.

Any safeguarding concerns about children who become EHE will be communicated to the MASH or other services.

The statutory guidance on 'Exclusion from maintained schools, Academies and child referral units in England' (2017) sets out the lawful use of these powers.

22. Prevent Agenda

School staff will have due regard to the need to prevent people from being drawn into terrorism and abide by the Counter Terrorism and Security Act 2015 and will assess the risk of pupils being radicalised and drawn into terrorism. The safeguarding leads will have received WRAP and Prevent training and will ensure that all members of school staff will also receive regular training on the Prevent agenda. Staff must keep up to date with local risks and issues. All staff are aware of the statutory duty to report any concerns regarding terrorism.

Staff will be vigilant at identifying the warning signs of pupils and families being drawn into terrorist or extremist groups. Where there are concerns about pupils travelling to a conflict zone advice may be sought from the Home Office and a referral made to MASH if concerns remain. Where there is an assessment of being at risk, the lead will refer to Channel programme, refer to MASH or for an immediate response call the Anti-Terror hotline (0800) 789321.

Guidance on Channel is available at:

<https://www.gov.uk/government/publications/channel-guidance>

23. Children at risk of CSE (Child Sexual Exploitation)

Child sexual exploitation is a form of child sexual abuse. It does not always involve physical contact: it can also occur through the use of technology. Trust schools will work together with other agencies to identify and reduce the risks of child sexual exploitation. Both staff and pupils will receive education about CSE and pupils should be advised as to how to keep themselves safe at an age appropriate level. The school should also raise awareness with parents and provide advice themselves or sign post parents to further advice.

Some of the following signs may be indicators of child sexual exploitation:

- Pupils who appear with unexplained gifts or new possessions.
- Pupils who associate with other young people involved in exploitation.
- Pupils who have older boyfriends or girlfriends.
- Pupils who suffer from sexually transmitted infections or become pregnant;
- Pupils who suffer from changes in emotional well-being.
- Pupils who misuse drugs and alcohol.
- Pupils who go missing for periods of time or regularly come home late.
- Pupils who regularly miss school or education or do not take part in education.

(KCSIE Annex A: page 76)

24. Contractors

Wherever possible, contractors will work on site after the pupils have left the premises. When this is not possible, we follow the LSCB guidelines 'Safeguarding pupils when building contractors work in education establishment' (revised to take account of Protection of Freedoms Act 2012) revised February 2017.

25. Intimate Care

Staff responsible for any intimate care of pupils will undertake their duties in a professional manner at all times and ensure the child's dignity is preserved with a high level of privacy, choice and control. There will be close partnership with parents/carers.

26. Transfer of Information

If a child moves from one school to another, the receiving school should be informed immediately by telephone that child protection/ safeguarding records exist. The original records must be passed on either by hand or sent by recorded delivery. A receipt note should be included in the records and pastoral staff should check receipt and record this on the child's file. Following the LSCB guidance, once the information has been transferred, it will be destroyed unless there is an exceptional circumstance where it is still required.

Where transferring or receiving schools use My Concern the records can be transferred securely to the receiving schools records.

When a new child joins school, the office will send a request for information safeguarding form to the previous school and this will be returned to the DSL.

27. Mobile devices

Staff and (volunteers) will not have their mobile devices around the pupils in school. All visitors will also adhere to these guidelines, with the exemption of social care, family outreach, school attendance workers and police professionals (if necessary).

All staff receive E-safety training and should be mindful of this as part of our safeguarding procedures. Pupils hand in their phone at the start of the day.

28. Health and Safety

Please refer to our separate Health and Safety Policy. This reflects the importance we give to the protection of our pupils physically within the school environment, safe internet use and also when they are learning outside the classroom (off site and on trips).

29. Forced Marriage (FM)/ Honour Based Violence

So-called 'honour-based' violence (HBV) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing. Abuse committed in the context of preserving "honour" often involves a wider network of family or community pressure and can include multiple perpetrators. It is important to be

aware of this dynamic and additional risk factors when deciding what form of safeguarding action to take. All forms of HBV are abuse (regardless of the motivation) and should be handled and escalated as such.

Forced marriage is an entirely separate issue from arranged marriage. It is a human rights abuse and falls within the Crown Prosecution Service definition of domestic violence. Young men and women can be at risk in affected ethnic groups. Whistleblowing may come from younger siblings. Other indicators may be detected by changes in adolescent behaviours. Never attempt to intervene directly as a school or through a third party. Staff must report and discuss any concerns with the DSL/ Deputy and they will then refer to the MASH if required.

Further information can be found at: <https://www.gov.uk/guidance/forced-marriage>

Staff can contact the Forced Marriage Unit if they require advice or information on:

020 7008 0151 or email fm@fco.gov.uk

30. Female Genital Mutilation

It is essential that staff are aware of FGM practices and the need to look for signs, symptoms and other indicators of FGM. Staff have a duty to report any case of FGM for under 18 years of age.

FGM involves procedures that intentionally alter/injure the female genital organs for non-medical reasons.

FGM is internationally recognised as a violation of human rights of girls and women. It is **illegal** in most countries including the UK and **must** be reported.

The 'One Chance' rule

As with Forced Marriage, there is the 'One Chance' rule. It is essential that schools take action **without delay**.

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/512906/Multi_Agency_Statutory_Guidance_on_FGM_-_FINAL.pdf

Staff receive training regarding FGM and are aware of their **mandatory duty** to report any concerns to the DSL/Deputy, and then they will contact the MASH.

In cases of known FGM, this is reported directly to the police – on 101 or 999 as FGM is illegal in the UK.

31. Child Criminal Exploitation: County Lines

Criminal exploitation of children is a geographically widespread form of harm that is a typical feature of county lines criminal activity: drug networks or gangs groom and exploit children and young people to carry drugs and money from urban areas to suburban and rural areas, market and seaside towns.

Staff must report any concerns to the DSL/ Deputy and they will then refer to the MASH if required. A referral to the National Referral Mechanism should be considered - www.nationalcrimeagency.gov.uk.

Like other forms of abuse and exploitation, county lines exploitation:

- Can affect any child or young person (male or female) under the age of 18 years.
- Can affect any vulnerable adult over the age of 18 years.
- Can still be exploitation even if the activity appears consensual.
- Can involve force and/or enticement-based methods of compliance and is often accompanied by violence or threats of violence.
- Can be perpetrated by individuals or groups, males or females, and young people or adults.
- Is typified by some form of power imbalance in favour of those perpetrating the exploitation. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, cognitive ability, physical strength, status, and access to economic or other resources.

32. School Safeguarding Responsibilities Summary **– the school will:**

- Abide by the Keeping Children Safe in Education (KCSIE) guidance:

Safeguarding and promoting the welfare of the children is everyone's responsibility. Everyone who comes into contact with children and their families has a role to play. In order to fulfil this responsibility effectively, all professionals should make sure their approach is child-centred. This means that they should consider, at all times, what is in the best interests of the child.

School and college staff are particularly important as they are in a position to identify concerns early, provide help for pupils, and prevent concerns from escalating.

Schools and colleges and their staff are an important part of the wider safeguarding system for pupils. This system is described in statutory guidance *Working Together to Safeguard Children 2018*.

(KCSIE page 5)

- Give all staff a copy of part 1 of KCSIE/ Annex A and ensure that it is read and understood. They will also provide knowledge of and access to all of KCSIE especially 'Part 4 - allegations of abuse made against teachers and other staff'.
- Have a child protection/Safeguarding policy with procedures which are in accordance with government guidance and refer to locally agreed inter-agency procedures put in place by the Local Safeguarding Children's Board (LSCB).
- Appoint a lead Trustee responsible for safeguarding practice within the school.

- Have safeguarding as a standing agenda item at SLT meetings and governing body meetings. Where appropriate, minutes should be recorded.
- Appoint a Designated Safeguarding Lead who is a member of the Leadership Team and Deputies to provide adequate cover.
- Ensure that the DSL (usually) leads on the Prevent agenda.
- Have a named member of staff to support pupils who are Looked After Children (Designated teacher) who will work closely with the DSL.
- Require teachers, staff and (volunteers) to read and implement the appropriate Dorset, Bournemouth and Poole LSCB procedures, school policy and good practice guidelines.
- Ensure that teachers, staff, peripatetic staff, contractors and (volunteers) have completed Disclosure and Barring Service checks as per the safer recruitment guidance and that contacts within extended services require safer recruitment and safeguarding compliance.
- Undertake relevant safer recruitment and allegations management training.
- Ensure any external contractors using or on school premises are signed up to Safeguarding Procedures and ensure they follow guidelines on the use of restraint and comply with the safeguarding requirements, i.e. after school clubs.
- Ensure staff and (volunteers) comply with Safer Working Practice for adults who work with pupils and young people in education settings.
- Sign up to the local Information Sharing Charter (ISC) previously the Dorset overarching information sharing protocol and share information relating to MARAC and the personal information sharing agreement with respect to receiving alerts about domestic abuse.
- Ensure that the relevant staff have undertaken appropriate training to contribute to multi-agency assessments of children and make referrals.
- Ensure management of allegations procedures are implemented following the KCSIE and LSCB guidance.
- Ensure staff work to the agreed Behaviour policy/code of conduct and Safer Working procedures.
- Recognise that pupils with special educational needs may be especially vulnerable to abuse and expect staff to take extra care to ensure their needs are protected.
- Have and use an Anti-Bullying Policy responding to any complaint of bullying or prejudice within the school. Have a member of staff as an Anti-Bullying Champion.
- Have an E-safety policy in line with LSCB requirements. Have a member of staff as an E-Safety Champion.
- Have a Prevent lead and actions in relation to the Prevent Duty.
- Have a Whistleblowing policy where it is safe to discuss concerns.
- Be aware of the needs of vulnerable groups, identify and action for all identified.
- Make policies available to parents and pupils via the school website.
- Provide education to pupils about safeguarding issues.
- Ensure the child's wishes and feelings are taken into account in respect to individual matters as well as safeguarding generally.
- Undertake an annual audit of safeguarding, using the LSCB Safeguarding Self Evaluation audit tool (or similar) which will be shared with the Trustees leading to

appropriate actions to ensure that the school is meeting all the requirements in line with national guidance, legislation and LSCB guidance

- Undertake a safeguarding report for the Trustees at least annually and review the Safeguarding Policy annually.

The school has a responsibility to work with other agencies on all safeguarding issues which may include:

- Child sexual exploitation (CSE)
- Peer on peer abuse
- Bullying including cyberbullying and prejudice based bullying
- Domestic abuse
- Drugs and alcohol misuse
- Fabricated or induced illness
- Faith abuse
- Female genital mutilation (FGM)
- Forced marriage
- Gangs and youth violence
- Gender-based violence/violence against women and girls (VAWG)
- Mental health
- Private fostering/any regulated activity such as host families
- Radicalisation/extremism
- Sexting/grooming and other E safety issues
- Teenage relationship abuse
- Trafficking and modern slavery
- Illegal child employment

33. Monitoring and evaluation

Our Safeguarding Policy and procedures will be monitored and evaluated by:

- The Child and Safeguarding Compliance Panel
- The Designated Safeguarding Lead and Deputy DSL
- The Headteacher/Executive Head Teacher/ CEO
- The Senior Leadership Team

Appendices:

Further information is in the appendices on:

- Signs of abuse (including Child Sexual Exploitation)
- Female Genital Mutilation
- Prevent agenda

Appendix one

Recognising signs of child abuse

Categories of Abuse:

- Physical Abuse
- Emotional Abuse (including Domestic Abuse)
- Sexual Abuse
- Neglect

Signs of Abuse in Children:

The following non-specific signs may indicate something is wrong:

- Significant change in behaviour
- Extreme anger or sadness
- Aggressive and attention-seeking behaviour
- Suspicious bruises with unsatisfactory explanations
- Lack of self-esteem
- Self-injury
- Depression
- Age inappropriate sexual behaviour
- Child Sexual Exploitation.

Risk Indicators

The factors described in this section are frequently found in cases of child abuse. Their presence is not proof that abuse has occurred, but:

- Must be regarded as indicators of the possibility of significant harm
- Justifies the need for careful assessment and discussion with designated / named / lead person, manager, (or in the absence of all those individuals, an experienced colleague)
- May require consultation with and / or referral to Children's Services

The absence of such indicators does not mean that abuse or neglect has not occurred.

In an abusive relationship the child may:

- Appear frightened of the parent/s
- Act in a way that is inappropriate to her/his age and development (though full account needs to be taken of different patterns of development and different ethnic groups)

The parent or carer may:

- Persistently avoid child health promotion services and treatment of the child's episodic illnesses
- Have unrealistic expectations of the child
- Frequently complain about/to the child and may fail to provide attention or praise (high criticism/low warmth environment)
- Be absent or misusing substances
- Persistently refuse to allow access on home visits
- Be involved in domestic abuse

Staff should be aware of the potential risk to children when individuals, previously known or suspected to have abused children, move into the household.

Recognising Physical Abuse

The following are often regarded as indicators of concern:

- An explanation which is inconsistent with an injury
- Several different explanations provided for an injury
- Unexplained delay in seeking treatment
- The parents/carers are uninterested or undisturbed by an accident or injury
- Parents are absent without good reason when their child is presented for treatment
- Repeated presentation of minor injuries (which may represent a "cry for help" and if ignored could lead to a more serious injury)
- Family use of different doctors and A&E departments
- Reluctance to give information or mention previous injuries

Bruising

Children can have accidental bruising, but the following **must** be considered as non-accidental unless there is evidence or an adequate explanation provided:

- Any bruising to a pre-crawling or pre-walking baby
- Bruising in or around the mouth, particularly in small babies which may indicate force feeding
- Two simultaneous bruised eyes, without bruising to the forehead, (rarely accidental, though a single bruised eye can be accidental or abusive)
- Repeated or multiple bruising on the head or on sites unlikely to be injured accidentally
- Variation in colour possibly indicating injuries caused at different times
- The outline of an object used e.g. belt marks, hand prints or a hair brush

- Bruising or tears around, or behind, the earlobe/s indicating injury by pulling or twisting
- Bruising around the face
- Grasp marks on small children
- Bruising on the arms, buttocks and thighs may be an indicator of sexual abuse

Bite Marks

Bite marks can leave clear impressions of the teeth. Human bite marks are oval or crescent shaped. Those over 3 cm in diameter are more likely to have been caused by an adult or older child.

A medical opinion should be sought where there is any doubt over the origin of the bite.

Burns and Scalds

It can be difficult to distinguish between accidental and non-accidental burns and scalds, and will always require experienced medical opinion. Any burn with a clear outline may be suspicious e.g.:

- Circular burns from cigarettes (but may be friction burns if along the bony protuberance of the spine)
- Linear burns from hot metal rods or electrical fire elements
- Burns of uniform depth over a large area
- Scalds that have a line indicating immersion or poured liquid (a child getting into hot water is his/her own accord will struggle to get out and cause splash marks)
- Old scars indicating previous burns/scalds which did not have appropriate treatment or adequate explanation

Scalds to the buttocks of a small child, particularly in the absence of burns to the feet, are indicative of dipping into a hot liquid or bath.

Fractures

Fractures may cause pain, swelling and discolouration over a bone or joint.

Non-mobile children rarely sustain fractures.

There are grounds for concern if:

- The history provided is vague, non-existent or inconsistent with the fracture type
- *There are associated old fractures
- Medical attention is sought after a period of delay when the fracture has caused symptoms such as swelling, pain or loss of movement
- There is an unexplained fracture in the first year of life

Scars

A large number of scars or scars of different sizes or ages, or on different parts of the body, may suggest abuse.

Recognising Emotional Abuse

Emotional abuse may be difficult to recognise, as the signs are usually behavioural rather than physical. The manifestations of emotional abuse might also indicate the presence of other kinds of abuse.

The indicators of emotional abuse are often also associated with other forms of abuse.

The following may be indicators of emotional abuse:

- Developmental delay
- Abnormal attachment between a child and parent/carer e.g. anxious, indiscriminate or not attachment
- Indiscriminate attachment or failure to attach
- Aggressive behaviour towards others
- Made a scape-goat within the family
- Frozen watchfulness, particularly in pre-school children
- Low self-esteem and lack of confidence
- Withdrawn or seen as a “loner” – difficulty relating to others

Recognising Signs of Sexual Abuse

Boys and girls of all ages may be sexually abused and are frequently scared to say anything due to guilt and/or fear. This is particularly difficult for a child to talk about and full account should be taken of the cultural sensitivities of any individual child/family.

Recognition can be difficult, unless the child discloses and is believed. There may be no physical signs and indications are likely to be emotional/behavioural.

Some behavioural indicators associated with this form of abuse are:

- Inappropriate sexualised conduct
- Sexually explicit behaviour, play or conversation, inappropriate to the child’s age
- Continual and inappropriate or excessive masturbation
- Self-harm (including eating disorder), self-mutilation and suicide attempts
- Involvement in prostitution or indiscriminate choice of sexual partners
- An anxious unwillingness to remove clothes e.g. for sports events (but this may be related to cultural norms or physical difficulties)

Some physical indicators associated with this form of abuse are:

- Pain or itching of genital area
- Blood on underclothes
- Pregnancy in a younger girl where the identity of the father is not disclosed

- Physical symptoms such as injuries to the genital or anal area, bruising to buttocks, abdomen and thighs, sexually transmitted disease, presence of semen on vagina, anus, external genitalia or clothing

Sexual Abuse by Young People

The boundary between what is abusive and what is part of normal childhood or youthful experimentation can be blurred. The determination of whether behaviour is developmental, inappropriate or abusive will hinge around the related concepts of true consent, power imbalance and exploitation. This may include children and young people who exhibit a range of sexually problematic behaviour such as indecent exposure, obscene telephone calls, fetishism, bestiality and sexual abuse against adults, peers or children.

Developmental Sexual Activity encompasses those actions that are to be expected from children and young people as they move from infancy through to an adult understanding of their physical, emotional and behavioural relationships with each other. Such sexual activity is essentially information gathering and experience testing. It is characterised by mutuality and of the seeking of consent.

Inappropriate Sexual Behaviour can be inappropriate socially, inappropriate to development, or both. In considering whether behaviour fits into this category, it is important to consider what negative effects it has on any of the parties involved and what concerns it raises about a child or young person. It should be recognised that some actions may be motivated by information seeking, but still cause significant upset, confusion, worry, physical damage, etc. It may also be that the behaviour is “acting out” which may derive from other sexual situations to which the child or young person has been exposed.

If an act appears to have been inappropriate, there may still be a need for some form of behaviour management or intervention. For some children, educative inputs may be enough to address the behaviour.

Abusive sexual activity included any behaviour involving coercion, threats, aggression together with secrecy, or where one participant relies on an unequal power base.

The following traffic light tool should be used when considering any sexualised behaviour:

<http://www.brook.org.uk/old/index.php/traffic-light-tool-0-to-5>

<http://www.brook.org.uk/old/index.php/traffic-light-tool-5-to-9>

<http://www.brook.org.uk/old/index.php/traffic-light-tool-9-13>

Assessment

In order to more fully determine the nature of the incident the following factors should be given consideration. The presence of exploitation in terms of:

- **Equality** – consider differentials of physical, cognitive and emotional development, power and control and authority, passive and assertive tendencies
- **Consent** – agreement including all the following:
 - Understanding that is proposed based on age, maturity, development level, functioning and experience
 - Knowledge of society's standards for what is being proposed
 - Awareness of potential consequences and alternatives
 - Assumption that agreements or disagreements will be respected equally
 - Voluntary decision
 - Mental competence
- **Coercion** – the young perpetrator who abuses may use techniques like bribing, manipulation and emotional threats of secondary gains and losses that is loss of love, friendship, etc. Some may use physical force, brutality or the threat of these regardless of victim resistance.

In evaluating sexual behaviour of children and young people, the above information should be used only as a guide.

Recognising Neglect

Evidence of neglect is built up over a period of time and can cover different aspects of parenting. Indicators include:

- Failure by parents or carers to meet the basic essential needs e.g. adequate food, clothes, warmth, hygiene and medical care
- A child seen to be listless, apathetic and unresponsive with no apparent medical cause
- Failure of child to grow within normal expected pattern, with accompanying weight loss
- Child thrives away from home environment
- Child frequently absent from school
- Child left with adults who are intoxicated or violent
- Child abandoned or left alone for excessive periods

Child Sexual Exploitation

The following list of indicators is not exhaustive or definitive but it does highlight common signs which can assist professionals in identifying children or young people who may be victims of sexual exploitation.

Signs include:

- underage sexual activity
- inappropriate sexual or sexualised behaviour

- sexually risky behaviour, 'swapping' sex
- repeat sexually transmitted infections
- in girls, repeat pregnancy, abortions, miscarriage
- receiving unexplained gifts or gifts from unknown sources
- having multiple mobile phones and worrying about losing contact via mobile
- having unaffordable new things (clothes, mobile) or expensive habits (alcohol, drugs)
- changes in the way they dress
- going to hotels or other unusual locations to meet friends
- seen at known places of concern
- moving around the country, appearing in new towns or cities, not knowing where they are
- getting in/out of different cars driven by unknown adults
- having older boyfriends or girlfriends
- contact with known perpetrators
- involved in abusive relationships, intimidated and fearful of certain people or situations
- hanging out with groups of older people, or anti-social groups, or with other vulnerable peers
- associating with other young people involved in sexual exploitation
- recruiting other young people to exploitative situations
- truancy, exclusion, disengagement with school, opting out of education altogether
- unexplained changes in behaviour or personality (chaotic, aggressive, sexual)
- mood swings, volatile behaviour, emotional distress
- self-harming, suicidal thoughts, suicide attempts, overdosing, eating disorders
- drug or alcohol misuse
- getting involved in crime
- police involvement, police records
- involved in gangs, gang fights, gang membership
- injuries from physical assault, physical restraint, sexual assault.

Appendix two

Female Genital Mutilation (FGM)

It is essential that staff are aware of FGM practices and the need to look for signs, symptoms and other indicators of FGM. Staff have a duty to report any case of FGM for under 18 years of age.

What is FGM?

It involves procedures that intentionally alter/injure the female genital organs for non-medical reasons.

4 types of procedure:

Type 1 Clitoridectomy – partial/total removal of clitoris

Type 2 Excision – partial/total removal of clitoris and labia minora

Type 3 Infibulation entrance to vagina is narrowed by repositioning the inner/outer labia

Type 4 all other procedures that may include: pricking, piercing, incising, cauterising and scraping the genital area.

Why is it carried out?

Belief that:

- FGM brings status/respect to the girl – social acceptance for marriage
- Preserves a girl's virginity
- Part of being a woman / rite of passage
- Upholds family honour
- Cleanses and purifies the girl
- Gives a sense of belonging to the community
- Fulfils a religious requirement
- Perpetuates a custom/tradition
- Helps girls be clean / hygienic
- Is cosmetically desirable
- Mistakenly believed to make childbirth easier

Is FGM legal?

FGM is internationally recognised as a violation of human rights of girls and women. It is **illegal** in most countries including the UK and must be reported.

Circumstances and occurrences that may point to FGM happening:

- Child talking about getting ready for a special ceremony
- Family taking a long trip abroad
- Child's family being from one of the 'at risk' communities for FGM (Kenya, Somalia, Sudan, Sierra Leon, Egypt, Nigeria, Eritrea as well as non-African communities including Yemeni, Afghani, Kurdistan, Indonesia and Pakistan)
- Knowledge that the child's sibling has undergone FGM
- Child talks about going abroad to be 'cut' or to prepare for marriage

Signs that may indicate a child has undergone FGM:

- Prolonged absence from school and other activities
- Behaviour change on return from a holiday abroad, such as being withdrawn and appearing subdued
- Bladder or menstrual problems
- Finding it difficult to sit still and looking uncomfortable
- Complaining about pain between the legs
- Mentioning something somebody did to them that they are not allowed to talk about
- Secretive behaviour, including isolating themselves from the group
- Reluctance to take part in physical activity
- Repeated urinal tract infection
- Disclosure

Appendix three

Prevent Duty- Tackling Radicalisation and Extremism **Safeguarding students who are vulnerable to extremism.**

The school values freedom of speech and the expression of beliefs / ideology as fundamental rights underpinning our society's values. Both children and teachers have the right to speak freely and voice their opinions. However, freedom comes with responsibility and free speech that is designed to manipulate the vulnerable or that leads to violence and harm of others goes against the moral principles in which freedom of speech is valued. Free speech is not an unqualified privilege; it is subject to laws and policies governing equality, human rights, community safety and community cohesion. The schools Rights' Respecting approach underpins this principle.

1. We believe that it is possible to intervene to protect people who are vulnerable. **Early intervention is vital.** We must have the confidence to challenge, the confidence to intervene and ensure that we have strong safeguarding practices based on the most up-to-date guidance and best practice.
2. The school will actively challenge children, staff or parents expressing opinions contrary to fundamental British Values, including 'extremist' views.
3. Staff are reminded to suspend any 'professional disbelief' that instances of radicalisation 'could not happen here' and to be 'professionally inquisitive' where concerns arise, referring any concerns through the appropriate channels.
4. Our schools, like all others, is required to identify a Single Point of Contact (SPOC) who will be the lead within the organisation for safeguarding in relation to protecting individuals from radicalisation and involvement in terrorism. The SPOC will be the Designated Safeguarding Leads.
5. When any member of staff has concerns that a child or staff member may be at risk of radicalisation or involvement in terrorism, they should speak with the SPOC (DSL).

THE ROLE OF THE CURRICULUM and the SCHOOL ETHOS

- Our curriculum is “broad and balanced” It promotes respect, tolerance and diversity considering children spiritual, moral, social and cultural development. Children are encouraged to share their views and recognise that they are entitled to have their own different beliefs which should not be used to influence others. Our curriculum seeks to promote British Values
- As well as bespoke PSHE lessons, provision is embedded across the curriculum. It directs our assemblies and underpins the ethos of the school. It is recognised that children with low aspirations are more vulnerable to radicalisation and therefore we strive to equip our children with confidence, self-belief, respect and tolerance as well as setting high standards and expectations for themselves.
- Children are regularly taught about how to stay safe when using the internet and are encouraged to recognise that people are not always who they say they are online. They are taught to seek adult help if they are upset or concerned about anything they read or see on the internet.
- The school has clear IT policies, filters and practices in place to protect children online to ensure that the promotion of extremism on line cannot be accessed.

The following national guidelines should also be read when working with this appendix;

- **PREVENT Strategy HM Government**
